

General Education Planning Worksheet

EKU

Putting The Pieces Together

The mission of general education is to promote learning that is central to the intellectual pursuits associated with our educational programs and to enable students to make informed choices about matters of public and personal significance in a diverse, democratic society and global community. The general education program helps students to become informed, independent thinkers by developing competencies in communication, quantitative analysis, and critical thinking by helping them understand and appreciate the diversity of culture, individuals, the natural environment, and the global society. For certain curricula, individual requirements are waived if they are satisfied in the major program. Refer to the program plans in Section 5 of the *Catalog*.

The General Education Program consists of 48 hours of course work in eight blocks (identified with Roman numerals): communication (I), mathematics (II), arts and humanities (III), natural sciences (IV), social and behavioral sciences (V), wellness (VI), breadth of knowledge (VII), and depth of knowledge (VIII). These blocks are subdivided into 16 course categories. Students must earn the specified number of hours in each of these course categories.

NOTE 1: The requirements listed here are for Baccalaureate (Bachelors) degree students. Students in Associate Degree majors should refer to the program plans in Section Five of the *Undergraduate Catalog* for General Education requirements.

NOTE 2: The courses listed award three (3) hours of credit, unless a number appears in parentheses following the course name. This number represents the hours awarded for such courses. Course numbers followed by an asterisk (*) have prerequisites or other restrictions on enrollment. Refer to Course Descriptions in Section 6 of the *Undergraduate Catalog* for specific restrictions.
